MEMORANDUM FOR: Chief, Logistics Services Division

SUBJECT : Micropower Technology Symposium/Seminar

1. The Office of Research and Development plans to hold a classified micropower technology presentation on 15 April 1968 at the main Headquarters auditorium. The presentation will be conducted by ORD and coordinated with various offices of the Agency concerned with applications of micropower technology to Agency requirements.

2. It is planned that approximately 50 to 80 companies will be invited to the seminar. Total attendance could include 100 Agency personnel and up to 200 circuit design engineers from selected contractors.

25X1 3. Appropriate components of the Agency (TSD, O/C, O/S, and DDS&T) will be involved in the seminar. Preliminary discussions have been undertaken with Mr. John F. Blake and [redacted] The Office of Security will manage the affair through the DDS&T Security Management Staff.

4. It has been suggested that arrangements be made to reserve a section of the cafeteria for lunch for this group of people on the day of the meeting. Although at this time precise numbers of participants cannot be given, it does appear 300 is about right. We will keep you advised of developments and any problems that might arise.
